

**CPIC Report**  
**December 14th 2017 Meeting**

**Information Session**

39 participants attended the session.

Despite having been formally invited, only a few members of the administration attended.

**CPIC Reimbursement**

Please note that CPIC does not reimburse prior to attending a Professional Development Activity. The reimbursement takes place once the event has been attended and once the proper paperwork has been received.

**Network date of submission**

CPIC reviewed the date of submission for network session, and removed the deadline.

As of now, demands will be reviewed on a monthly basis at the CPIC meeting.

Please note that the rules and regulations remain the same. For more information, please review the CPIC booklet available on SSO.

**New Teachers**

- 9 teachers attended the induction dinner and conference on Social Medias and current contractual rights.
- 14 teachers attended the enhancement and evaluation workshop
- As of December, 5 registrations were accounted for the classroom management workshop of January 24
- PTU and CPIC will continue to send personalized invitations to New teachers. If you know of a new teacher joining your staff, please pass the information along.

**Review of DPIC PLans**

21 schools still need to send in their yearly plan. Please note that the deadline was November 30th. All plans received were reviewed and some questions were sent to some chairpersons.

**Teachers Presenting or Co-Presenting and Funding request**

CPIC refuses application of teachers presenting at a conference. CPIC does not provide any funding for teachers taking part themselves in a PDA event. The committee reasoning resides on the fact that these situations creates difficult accountability scenarios as very often teachers are compensated for presenting or co-presenting at an event.

**Review of requests**

- 11 conferences requests were presented, all were approved
- 18 credit courses intent were submitted, all were approved, one was modified to respect the maximum amount of credits available

One Network was presented and approved.
